

# Public Service Scholars Program Application 21-22

Questions Responses

Section 1 of 4

## Public Service Scholars Program 21-22

We recommend that you answer the questions before you start the application process and then cut and paste your responses as Google form does not allow you to save as you go. Please note that a full application must include an unofficial transcript, CV or resume, verification of acceptance to the honors program (if applicable) in your academic major or interdisciplinary program, and confirmation that you've discussed your intent to participate in PSSP with your faculty advisor.

This form is automatically collecting email addresses for Stanford University users. [Change settings](#)

Section 3 of 4

## Honors Thesis or Capstone Project

Please describe the nature of your research or capstone project, your preparation for conducting it, and what you deem to be its practical applications. Please ensure that you are thorough and specific in your responses to the questions. Please respond to each question separately; each response should be approximately one to two paragraphs in length.

What is the objective of your research or capstone project? Please identify the specific research question you want to explore and explain why it is significant. Describe your research area of study. \*

Long answer text

What will you do to answer the question you are posing? Please describe the methods you will use to generate and analyze data. Please also describe where you are in the data collection process (what data has been collected and what data still needs to be collected). \*

Long answer text

What specific steps have you taken to prepare for your community-engaged research or capstone project? What methods and data analysis courses have you taken or plan to take? What prior knowledge and exposure do you have to community-engaged or community-based research? \*

Long answer text

If your project requires the participation of human subjects, have you submitted a Human Subjects Protocol and has it been approved? \*

Long answer text

How do you see community-engaged scholarship, public scholarship, or scholar-activism being a part of your work? How might your research benefit a specific community or the "public good"? \*

Long answer text

What challenges do you anticipate and how will you overcome them? \*

Long answer text
